

LEAN MANAGEMENT SOLUTIONS

Providing value to customers, operational excellence, and employee engagement are critical to the long-term success and survival of your business. Global competition, both external and internal has never been clearer, and survival will be limited to those who proactively commit to continuous improvement and waste reduction. Reacting after threats are imminent is always too late.

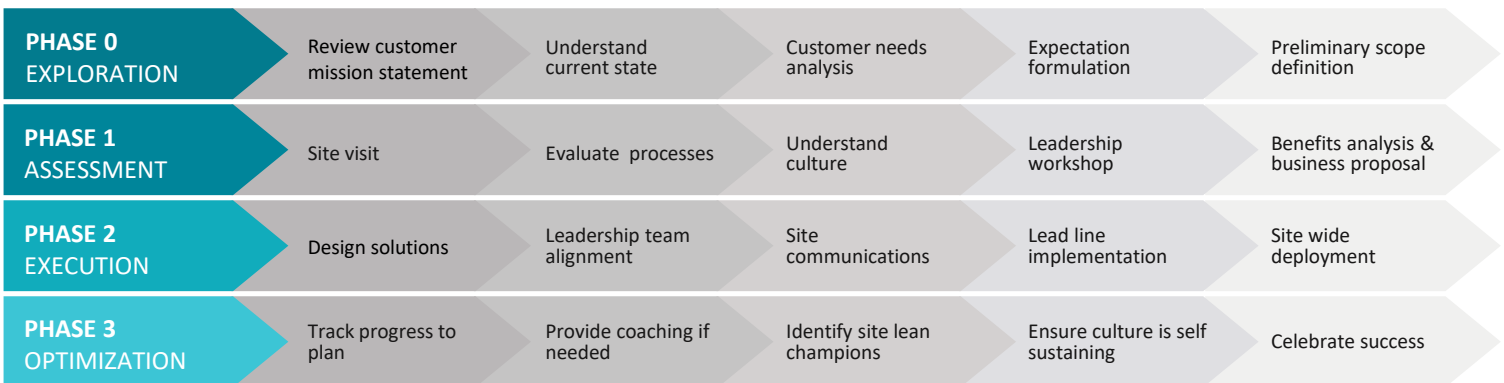

Lean Management has consistently demonstrated it provides the best platform and tools to drive your organizations culture, growth, and profitability. Lean will transform your organization through employee engagement, waste elimination, continuous improvement, cost reduction, and visual appearance.

Altix Lean Management solutions are custom designed to support your specific needs. From broad-based foundational implementations to targeted lean tools for those needing to accelerate their lean journey. Solutions include but are not limited to:

- Leadership training and coaching
- 5-S / 6-S foundations
- OEE performance monitoring
- AM/PM for full CAPEX utilization & optimization
- Kaizen – learning to see and continually improve
- VSM – designing and optimizing value streams

Altix Lean Management solutions deliver lean implementation tools that will transform your site culture and operations, by developing your people and providing them the tools to identify and drive out waste of all forms in your operation.

Altix brings decades of experience with documented success, developing and implementing lean initiatives in the U.S., Europe, and Asia. Our team of industry veterans can help you and your team plan, deploy, and leverage lean management tools to maximize your operational success.
