

# ENVIRONMENT, HEALTH, & SAFETY

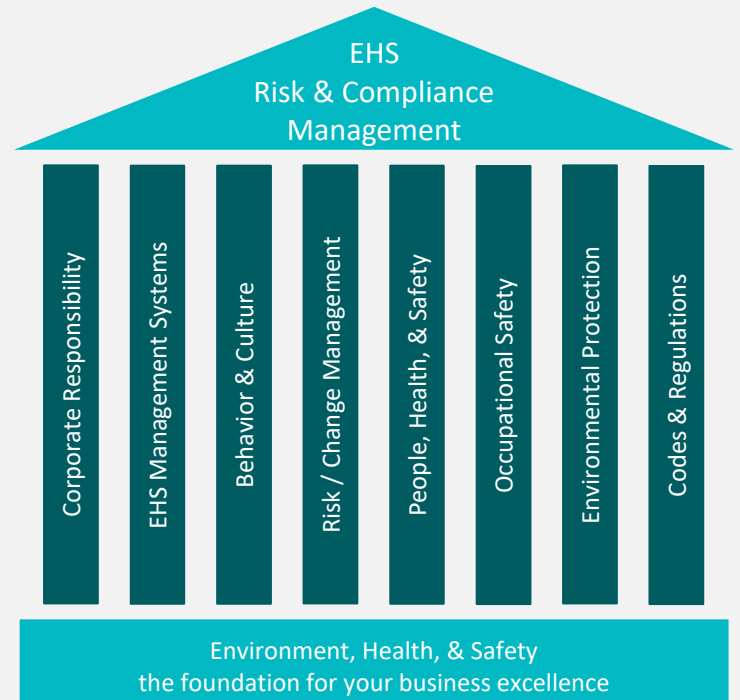

A positive and safe culture is key for success in any organization. Regardless of the industry or the size of the company, Environment, Health, and Safety (EHS) management is essential. EHS is the foundation for your business excellence and an EHS plan should be in place to help protect the public, employees, and your company.

A strong EHS culture leads to organizational excellence. Altix can help you and your team get your EHS house in order.

- Site profile development
- Policy establishment / review
- Procedures & process review
- Compliance assessment
- Safety & management controls
- Performance tracking
- Documentation & record keeping
- Coaching of key team members
- Capability building & training
- System evaluation & development

EHS should be a top priority to **protect** your employees, assets, brand image, market reputation, and the environment. Making EHS a pillar of your operational excellence strategy will:

- **Minimize** Leadership liability risks
- **Avoid** unnecessary expenses
- **Secure** operational excellence
- **Establish & Reinforce** public trust as a corporate citizen

The Altix Environment, Health, & Safety solutions are crafted by seasoned experts who incorporate industry best practices tailored to your specific industry needs.

- Accelerate your EHS transformation through our agility as independent experts
- Utilize 30+ years of best-in-class EHS expertise
- Understand and prepare for OSHA & EPA standards
- Operational / business excellence starts with a strong EHS pillar in place
