

Dalibor Krivanek

PARTNER EASTERN EUROPE

Expertise:

- Operations Management
- Lean Philosophy & Culture
- Lean Toolbox Implementation
- Supply Chain Management
- Leadership
- Team Building
- Value Stream Organizations
- Continuous Improvement
- Continuous Cost Reduction
- Coaching & Mentoring

Accomplished senior advisor and consultant for Lean Principles & Practices with nearly 2 decades of successful implementation with a range of organizations including auto, electronic and pharma, Dalibor has an impressive track record of turning around poorly performing operations, supply chains and suppliers.

Dalibor started his career in operational and technical roles for global companies (SAGEM, Océ, Mecaplast, ...) and eventually rose to become an Operations Manager, as well as Lean Practices Representative for the Mecaplast site in the Czech Republic. He was a member of two international OPEX teams trained by the famed Michael Balle in the implementation of Lean Practices. He also spent time in Japan studying and working for a global supplier to Toyota.

For the last twelve years Dalibor has provided hands on support to global and local organizations across Eastern Europe. He has also supported LCL (acquired by Altix 12/2020) on successful projects in Europe.

Dalibor studied Production Systems & Robotics and holds a degree from the University of Žilina (Slovakia)

Dalibor is a native of Slovakia where he resides.
