Yannick is a senior strategic advisor, senior consultant, industrial engineer and senior management executive with more than 25 years' experience developing and executing complex global expansion strategies throughout Germany, China and the US.

Yannick's unique expertise includes all aspects of global and international business, market entry, industrial best practices and excellence in advanced manufacturing, industrial engineering, logistics and multi-national supply chain management. During his successful career as Chief Operating Officer for a leading German based, international industrial technology company, Yannick established and managed regional production and logistic centers in China and North America.

A French native, who was immersed in the corporate and industrial arenas in Europe, Asia and the North-America, Yannick has built a vast business network spanning three continents and possesses a unique understanding of various business cultures. He speaks four languages and enjoys traveling with his family to discover new places, cultures and culinary experiences around the world.

Truly passionate about European-American affairs, Yannick currently serves as Chairman of the Board of Directors for the European – American Chamber of Commerce in Cincinnati.

Yannick holds a BS in Industrial Engineering and an MBA in General Management and Global Business from the University of Applied Sciences Hamburg, Germany.
