

**Operations
Leaders Circle
of Excellence**
2021-2022

A round table for operations leaders who want to strategically reflect in a peer group format, and extract themselves once a month from their day-to-day, to gain broader perspectives and industry best practices.

OPERATIONS LEADERS - CIRCLE OF EXCELLENCE

2021- 2022 Cohort

Brandon

For years I've looked for a group of likeminded leaders that share the same issues I face as an Operations Leaders. I am privileged to be a part of Altix Operations Leaders Circle of Excellence. It has been a great experience personally and professionally to exchange with top quality peers, companies and speakers.

Dan

The Altix Operations Leaders Circle of Excellence was a great experience. It provided monthly networking, consolidated Operational Excellence learning topics, and tours of local manufacturing facilities. I am excited to develop and implement the tools and best-practices and paying it forward.

Randy

I have thoroughly enjoyed each and every meeting. The topics are always relevant, and the conversations are always stimulating. The program that Altix Consulting has put together is very unique due to the fact that we meet and tour a different factory each month, accelerating our learnings. The collaboration and experience from each participant is very good and also adds to the experience..
